

Gifts for Baby

Baby Gifts
Starting silver spoons \$2.00 to \$3.00
Starting silver cups \$2.00 to \$3.00
Baby plates \$1.25 to \$2.00
Starting silver teacups \$2.00 to \$3.00
Baby teacups \$1.25 to \$2.00
Baby rattles \$1.25 to \$2.00

UNTIL Baby becomes a certain age, his Christmas gifts are somewhat of a puzzle. There is perhaps nothing that will be so much treasured in after years as a gift of silverware. Birks Baby silver is faultless in design and of a quality that will endure throughout many generations. Efficient manufacturing makes the price very moderate.

From Saturday, 18th December, the Birks store will be open until 10 o'clock each evening

B., W. & F. CLUB HELD SMOKER BEST IN YEARS

Boxing, Wrestling and Fencing Exhibitions Good.

LARGE AUDIENCE.

Event of the Evening Was M. Herscovitch, M.A.A.A., vs. Two Other Boxers.

Last night the B., W. and F. Club got away to a good start before a capacity audience in the ballroom at the Union. The audience was made up of a large number of students, who turned out to cheer the respective members of their faculties.

The first item on the programme was a wrestling bout between Phelan, of Commerce, and Proctor, of Medicine. Proctor succeeded very early in gaining a fall.

Currie, Comm., and Irving, Science, who engaged in the next wrestling bout, displayed a knowledge of many of the difficult holds in the science. When the bell rang neither had succeeded in gaining a fall. Francis Egan, heavyweight champion wrestler of Canada, refereed the bouts.

Mirsky, B.Sc., and Bernstein, B.Sc., in the 110-lb. class, engaged in the first fistic encounter of the evening. Although Mirsky had the advantage of height and reach over his opponent, Bernstein fought determinedly. Mirsky put up the better exhibition.

Craik, Sci. '23, and Cope, Arts '24, in the 135-lb. class, put up a snappy little exhibition of boxing. Cope packed a nasty punch in either hand and kept his opponent guessing throughout the three rounds.

Montgomery, Comm., and Messenger, Sci., were next on the list of the evening's entertainers. Both men showed that they knew the game well, although Montgomery had his man in critical positions only to lose him by Messenger's tricky wriggling.

Mathews, Med., and Champagne, N.A.A.A., next took the mat. The sturdy French-Canadian tried hard to win a fall, but Mathews managed trickily to elude all snares and pitfalls skilfully laid by his opponent. Champagne had the advantage in weight. The bout ended in a draw.

The fencing part of the programme consisted of two bouts, Cochrane vs. Roome, and Crestohl vs. Felding, and the audience was treated to a good exhibition in both cases.

Cochrane and Roome have been fencing for only one month, but during that time they have acquired by their enthusiasm a very good working knowledge of fencing, as was proved by their exhibition last night. The bout was won by Roome, by the close margin of 5 touches to 4.

The second bout, Crestohl vs. Felding, was a snappy exhibition of fencing, and the result was in doubt until the last touch was made. The score in this bout was 5 touches to 3, in (Continued on Page 3.)

ECONOMICS CLUB MEETING TO-NIGHT

To Take Place in Smoking Room of the Arts Building.

The Economics Club meets to-night in the smoking room of the Arts Building at eight o'clock. The subject under discussion is one which is, or should be, of universal interest to all, and particularly of importance to all students of Political Economy. Papers will be read by P. H. Addy and S. D. Pierce, dealing with the iron and steel industry, with special reference to the situation as it exists in Canada. The first speaker will touch upon the industrial phases of the problem, while S. D. Pierce will present the financial aspects to the members.

These meetings are always attended by an enthusiastic and attentive audience, and it is expected that this evening all the members of the club will make special efforts to be present. Drs. Leacock and Hemmison will be on hand to guide the discussion along its proper lines.

Refreshments will be served as usual, and everyone is urged to be in Room 14 of the Arts Building at eight o'clock sharp, to obviate any delay in beginning the evening's programme.

What's On

TO-DAY.

1.00 p.m.—R.V.C. '22 meeting.
1.30 p.m.—Trip to Bordeaux Jail.
5.00 p.m.—Snowshoe Club executive.
5.15 p.m.—Wrestling practice.
6.15 p.m.—Gymnastic Club.
7.00 p.m.—Newfoundland Club.
7.15 p.m.—Com. I. vs. Med. II., final Inter-class Basketball.
8.00 p.m.—Royal Astronomical Society.
8.00 p.m.—Chemical Society.
8.00 p.m.—Economics Club.
8.15 p.m.—Engineering Institute lecture.

COMING.

Dec. 17—Cercle Français meeting.
Dec. 17—Chemical meeting.
Dec. 17—McGill, Seniors vs. M. A. A. A. Basketball.
Dec. 17—Dental Undergrad. meeting.
Dec. 17—Maritime and Western Clubs Informal Dance.
Dec. 17—Canadian Club meeting.
Dec. 18—Senior Basketball at Peel street gym.

DELTA SIGMA SOCIETY HOLD GOOD DEBATE

Seniors and Juniors Fight For Class Honors.

JUNIORS WIN.

Audience Indulge in Heated Argument During Absence of Judges.

Senior vs. Junior Debate: "Resolved, That a study of the Sciences better fits a woman for life than a study of the Arts." With the Seniors, Miss Dart and Miss Godwin, upholding this resolution, and the Juniors, Miss Birkett and Miss McPartlin, combatting it, the members of the Delta Sigma Society witnessed a very keenly contested debate yesterday afternoon. Both sides had all the force and courage of their convictions, since those of the affirmative are, for all we know, budding young scientists, while the upholders of the negative are keen and conscientious classicists! Thus throughout the debate the arguments were heated, and the rebuttals brilliant.

Miss Dart, first speaker of the affirmative, after defining the subjects which she and her colleague took to lie in the territories of Arts and Science, respectively, pointed out that the aim of a useful life was service to mankind, and that the most important services to mankind had come through scientific discovery and research. Woman's service to mankind in public and home life was emphasized, endeavouring to point out the advantage of scientific home-making, which could be encouraged by a knowledge of chemistry, biology and hygiene.

In regard to woman in public life, Miss Dart pointed out the splendid opportunities open to women in Social Service and, since their enfranchisement, in politics. These opportunities could only be fully made use of with a knowledge of Sociology and Genetics, which the affirmative speakers classed with a Science course.

Throughout, Miss Dart treated her subject in a characteristically practical and well-ordered manner.

Miss McPartlin, in speaking for the negative, was firmly convinced that her Arts course was preferable to any Science courses. Her treatment of the subject was mainly to show that a Science course was not profitable, while, as she stated when beginning, her colleague would show that an Arts course was better fitted for woman. In a lively and humorous way Miss McPartlin pictured the paroxysms of fear into which a mother of scientific training might be thrown on beholding her infant being caressed with kisses! With other amusing examples she pictured the "happy home" of a scientific couple, where the imagination and artistic feelings were dulled by practical scientific explanations and facts.

Following up her colleague's argument (Continued on Page 2)

MANY DISCUSS PROSPECTS OF NEW MAGAZINE

Large Range of Opinion on Monthly Expressed.

NO QUORUM.

Students' Society Will Vote on Question Next Week.

Yesterday's meeting of the Students' Society held in the Union was remarkable for the amount of discussion occasioned, and also by the relative unimportance of the business actually transacted. The subject of the proposed monthly magazine was the chief topic, and a great many speakers took the opportunity of airing their opinions on the matter. Apart from the effect which this discussion had in clearing up the students' ideas on the subject, little was accomplished, the last motion before the house being rendered nugatory for lack of a quorum.

D. R. Learoyd, president of the Students' Council, occupied the chair, and after calling the meeting to order called upon Secretary J. A. Lalanne to read the minutes of the last Students' Society meeting. The question of the University Book Store, the president explained, is being left over until later in the session, when the newly-elected representatives to the Council will be given an opportunity to take such action as they may deem expedient. The chairman then briefly outlined the subject of the proposed new periodical. He wished to place himself on record as stating that at no time had the Council been adversely inclined to a new magazine, but that they had been unable to give it their support in view of the difficulties presented by the editorial policy outlined by the originators of the idea. In order to obtain fuller information on these points, the Council had addressed certain questions to Bullock, one of the editors, asking, in substance, whether the proposed magazine would interfere with the "Daily," what the responsibility of the Council would be, and in what way the editors planned to perpetuate the publication. In reply to these questions, the president stated that the Council were in receipt of certain information from the editors, but had had no opportunity of going into this matter at length. Learoyd stated that he could easily see how a purely literary publication might occupy a very useful sphere at McGill, and referred to similar publications at Harvard. If there was to be such a publication, he stated, it ought to be representative of the whole student body and should have an editorial policy free from controversial subjects.

O'Hagan, one of the editors of the proposed magazine, replied and commented upon some of the president's remarks. He stated that the editorial (Continued on Page 2.)

LAW FACULTY COMPLIMENTED

Canadian Law Times Praises Three-Year English Law Course.

The following is an extract from "The Canadian Law Times," December, 1920:

"It is with great pleasure that we announce that the Law Faculty of McGill University has completed a three-year Curriculum in English Law. It is intended to be a counterpart of the Curriculum on Civil Law, which has so long contributed to the advantage of the students of Quebec and made McGill University quite famous. It is only right that in a British country such a University as McGill should have its leading feature the exposition and teaching of the great principles of English Law as we have them embodied in the Common Law of England and in the Equity Jurisprudence which has, within the last couple of centuries, grown up as an adjunct of the Common Law and as an ameliorative of some of the harshnesses and injustices.

"We congratulate McGill University on this new development and wish it every success—a success which is almost certain to be achieved so long as the chair of Constitutional Law is held by men of the character for learning and ability of Doctor Mackay."

THURSDAY, DECEMBER 16, 1920.

"NO QUORUM"

It is to be regretted that yesterday's meeting of the Students' Society was not more largely attended. Out of a total registration of more than two thousand a scant hundred and fifty were present, and although the discussion was both lively and extensive, it cannot be said to have been representative of the bulk of student opinion.

We have grown accustomed to the laxity and apathy with which meetings of the Students' Society are regarded. There seems to be a failure to recognize the fact that these assemblies are convened for no other purpose than that of ascertaining the wishes of the students. Yesterday, after nearly two hours of discussion, a motion placed before the house had to be abandoned because there was no quorum present, and when it is remembered that only one hundred are required, according to the constitution of the Society, to form a quorum, it is evident that interest must be stimulated in some way or another.

Next Monday there will be held another meeting of the Students' Society when the matters left unsettled from yesterday's meeting will be re-opened. This question of a new publication for the University, and the manner in which it is to be directed, is one that deserves the attention of every student at McGill. It is possible that, as a result of yesterday's lively session, a somewhat larger attendance than usual will be obtained on Monday, but more is required. Every man who can possibly do so should make a special point of coming to this meeting, voicing his opinions if they seem to deserve it, and exercising his vote according to his own judgment. It is only in this manner that the full weight of student opinion can be estimated.

DELTA SIGMA SOCIETY HOLD GOOD DEBATE

(Continued from Page 1)

ments, Miss Godwin, second speaker of the affirmative, showed the need of systematic scientific training for women in the business world. Quoting statistics, she showed the increase from 1914-1919 of women in various business occupations in the United States, pointing out that employers of these women had in every case found that the weak point lay in the fact that many of these women lacked systematic scientific methods of work.

Next, in the field of Research, Miss Godwin showed the wide scope and wonderful opportunities here for bettering humanity. She dwelt on the nobler and higher aspect of such work, on the ideals of ultimate truth and the source of all things, summing up her arguments with a quotation from Huxley's metaphor of life as a chessboard, the study of the phenomena of the universe as the game, and the laws of Nature as the laws of the game. This serious and more idealistic treatment of the subject made a splendid combination with Miss Dart's treatment, bringing out very forcefully the ideal as well as the practical side.

Miss Birkett then spoke for the negative, pointing out how an Arts course is more fitted for woman. She believed that Science is more for man, that Arts is more suited to woman's sensitive and imaginative temperament. History, too, showed women to be successful in literary and artistic walks of life, those excelling in Science proving rather the exception than the rule. Moreover, Miss Birkett held that woman's mind is more receptive than creative, and consequently the assimilation of Arts subjects gives woman the required

culture which enables her to reflect upon and alleviate the difficulties which beset man. Miss Birkett spoke in a very convincing and dignified way, and all her points were clearly emphasized in very well-chosen words.

In the few minutes' rebuttal, Miss Dart showed great power in refuting several statements of the negative side; she did so in an amusing and quick manner, and to the enjoyment of those present.

While the judges withdrew for decision, the members indulged in a fairly heated argument, continuing the subject of debate, so that the time, which was really quite long, seemed short when the judges returned, having decided in favor of the Junior Year.

Both teams are to be congratulated on the excellence of the debate. It was quite one of the most interesting which we have had in the Delta Sigma for some time, and great things are expected when the winners of yesterday's debate will compete against the Sophs for the Inter-year championship.

FAIR PLAY IN POLITICS.

Proof of the fact that it pays to play fairly in politics is afforded in the outcome of an attempt in Nebraska, by opponents of the limited suffrage law passed in 1917, to secure a referendum on the statute. It was asserted that in the hearing the "antis," who were confident of success, interposed a lengthy objection to each question asked by the other side, with the purpose of making the record costly to the suffragists. The Supreme Court decided the case in favor of the suffragists, and the "antis," who intervened on the side of the State, are called upon to pay between \$3,000 and \$4,000 for court costs which their peculiar policy greatly increased.

ENTHUSIASTIC PROSPECTS FOR SIGNIFICANT MCGILL YEARBOOK

Juniors Have Plans Under Way—To Feature University's Centenary — Will Be An All-McGill Publication.

It all goes in accordance with the plans of the Editorial Board as outlined to the Junior representative last evening, the Yearbook, which the class of '22 are undertaking to publish, will have the largest circulation and the greatest McGill appeal of any undergraduate book as yet published. As has been stated, the Juniors realized the futility of continuing the publication of the old-style "Annual," so they determined to replace the "Old McGill" publication with one that would serve the purpose of a souvenir for the Juniors, and would at the same time be all-McGill in its appeal and interest. The Editorial Board are already well under way with preparations for the publication, and specifications are in the hands of several firms at the present time.

PLANS.

According to the plans as they stand at present, the Yearbook will be a publication of about three hundred pages, to measure about 12 by 9 inches (the approx. size of the Cosmopolitan). The cover and binding of the book will be distinctly different from that of the "Annual." The bulky cover, the unnecessary expensive paper, and the conspicuous waste of space formerly given over to borders and blank endings, will be abolished. The cover will probably be linen, or double thickness paper, the paper a lighter and equally as serviceable grade, and the pages artistically arranged — but without waste or extravagance. A popular suggestion is that the book have a picture of the founder on the cover, to celebrate the Centenary, and that the book be, in the main, a Centennial review of Old McGill from the days of 1821.

CIRCULATION.

Although the circulation will be largely determined by the cost that the Yearbook can be marketed at, the Editors are most optimistic, as it is contemplated that a book will be published at a price that will be within the reach of every student at the University. Certain it is that, can the price be brought down to a popular amount, the sale of the Yearbook

MANY DISCUSS PROSPECTS OF NEW MAGAZINE

(Continued from Page 1.)

policy of the proposed publication was not one that would promote parlor Bolshevism, and that an Advisory Council composed of professors would censor it. He stated that the financial status of the "Daily" would not be prejudiced, as the advertisers of the new paper would be obtained outside of the "Daily's" clientele, and every effort would be made to see that no infringement would be made upon the grounds of the "Daily." Finally, he stated, Bullock and himself were willing to assume all financial responsibility for the production of the paper.

Bullock followed, and stated that the magazine would be representative of the students of McGill as much as any paper edited by two men could be said to be representative. The editorial policy to be pursued would not promote dangerous radicalism. Moreover, the censorship to be exercised by the professors, mentioned before, would preclude the inclusion of anything inimical to the best interests of McGill.

J. C. Farthing drew the attention of the meeting to the fact that the issue was becoming obscured. He stated that the two clear-cut questions that were before the meeting were: first, whether the meeting wished to have a publication representative of the student-body and bearing the name of McGill, or did they desire a purely sectional magazine. Such a magazine as was suggested, he added, would have three safeguards against the expression of unpopular opinion. These were, the Students' Council, the Board of Governors and the support of the Student Body.

Ambridge then raised the question of the disposal of any profits which might accrue to the promoters of the new paper. O'Hagan replied that as he and Bullock stood ready to shoulder any loss, they were fairly entitled to any profits.

J. N. Petersen, president of the "Daily," then spoke of the probable effect which a new publication would have on the "Daily." He feared that if another paper should enter the field soliciting advertisements which might be secured for the "Daily," the result would be that demands, too often repeated, upon potential advertisers, might alienate their sympathy and have a prejudicial effect upon the "Daily's" main source of revenue.

F. D. Genest and C. P. Nolan then spoke in favor of the proposed magazine, the former asking that it be given a chance, while Nolan referred to "the liberty of the Press" and the "constitutional rights of British subjects" to which Farthing replied

that such a thing as the liberty of the Press did not exist, as a paper was forced to shape its policy according to the wishes of its advertisers.

A motion was finally called for, and it was then proposed that a vote be called on whether or not the meeting was in favor of a monthly publication by students of McGill University. This motion was then passed by a considerable majority. A second motion was then proposed that a monthly magazine, known as "The Sifter," should be published along the lines suggested by Messrs. Bullock and O'Hagan. This motion was amended by adding that the constitution should be drawn up and approved by the Students' Council. A second amendment was proposed that the constitution be approved by the Students' Council in concert with Bullock and O'Hagan. This second amendment was then voted upon and carried. After considerable discussion the original motion was then put to the meeting and was rejected. This led to a somewhat anomalous situation, the amendment having been passed and the original motion being lost. A further motion that the magazine should be published by Messrs. O'Hagan and Bullock was then proposed and was defeated. On a count being made, however, it was discovered that no quorum was present, and the president then stated that a further meeting of the Students' Society will be called in the near future to give further opportunity for discussion of the question.

NOTICES

Members of executives and others are requested to look under this heading for notices of all futurities. Each notice is absolutely official. The Editor will not be responsible for errors in articles unless the time and date are written out in full when they are sent in.

NEWFOUNDLAND CLUB.

A short business meeting of the Newfoundland Club will be held to-night at 7 p.m. in Strathcona Hall. Appointment of the honorary president, changes in constitution, election of functional committee, treasurer's reports, setting of date for future meetings, and other important items are to be brought before the meeting.

Everybody is requested to turn up, and especially to be on time.

CHRISTMAS CARDS.

The Xmas Cards which have been ordered through the porters at the Union are now to hand. Those who placed orders are requested to take delivery of the cards as soon as possible.

ECONOMICS CLUB.

There will be a meeting of the Economics Club this evening at 8 o'clock, in the Smoking Room of the Arts Building.

CHEMICAL MEETING.

A meeting of the Montreal section of the Society of Chemical Industry will be held in the Queens Hotel on Friday, Dec. 17th, at 8 p.m. Students are invited to attend.

BASKETBALL.

The basketball game between McGill Seniors and M.A.A.A. will be played in the M.A.A.A. Gym, Peel street, on Saturday evening.

WRESTLING PRACTICE.

There will be a wrestling practice in the Union at 5.15 p.m. to-day.

SENIOR BASKETBALL.

The senior basketball game between McGill and M.A.A.A. will take place in the Peel street Gymnasium on Saturday night.

ROYAL ASTRONOMICAL SOCIETY OF CANADA.

The Montreal branch of the Royal Astronomical Society of Canada will meet in the Engineering Building to-night at 8 p.m. This is the annual meeting and after reports and election of officers some lantern slides from the Dominion Observatory will be exhibited. Visitors are welcome.

LOST.

Silver Ever-Sharp Pencil in Room 37, Engineering Building at 12 on Tuesday. Finder kindly hand it to Harry, Janitor.

LOST.

A bunch of keys with name attached, at noon Dec. 14, between the Engineering Building and the Wesleyan College. Finder kindly leave with the Porter at the Union or with "Harry" at the Engineering Building.

The proofs of the English Rugby Team photograph are in the hands of the Hall Porter at the Union. Members desiring copies (\$2 each) will forward their names and the necessary money to the secretary-treasurer, John Helmcken, 297 Prince Arthur street west. The pictures will be suitably mounted and the names printed on. Act before Saturday.

SNOWSHOE CLUB.

There will be a meeting of the executive at 5 p.m. to-day at the Union.

Owing to the illness of Professor Hooke, the meetings announced for Thursday and Friday, Dec. 16th and 17th, are cancelled.

HIGH SCHOOL DANCE.

There still remain about 100 couple tickets for the High School Informal Graduates' Dance, which is to be held on Friday, Dec. 17th. The tickets are now on sale to McGill students and the public as well as to the Graduates. If there are any tickets remaining unsold by Friday night they will be sold at the door. The doors will be opened at 7.45 p.m. and the opening waltz begins at 8.15 p.m. sharp.

The programme for the dance is as follows:

- 1 Waltz.
- 2 One Step.
- 3 Fox Trot.
- 4 Waltz.
- 5 One Step.
- 6 Fox Trot.
- 7 One Step.
- 8 Waltz.
- 9 Fox Trot.
- 10 One Step.
- 11 Waltz.
- 12 One Step.
- 13 Fox Trot.
- 14 One Step.
- 15 Waltz.
- 16 Fox Trot.
- 17 One Step.
- 18 Waltz.

MED. '25 vs. COMMERCE '23.

Game for final Inter-class basketball will be played off at Molson's Hall at 7.15 to-night.

STUDENTS FOR JAIL.

The men of Med. '25 and Dentistry

INTERMEDIATES WON LAST NIGHT

Nationals Lost by Default in Water Polo at Central "Y" Tank.

The Intermediates won by virtue of default over the Nationals in water polo at the Central "Y" tank last night. The McGill men waited for about half an hour, and as no opponents turned up they telephoned the Nationals, who said they were unable to come.

The next game takes place with the Verdun Swimming Club at Verdun on Saturday. This game is the last which the Intermediates, and, in fact, the McGill Swimming Club, will play this season. The team, as it is playing away from home, is fervently hoping for strong support, and they wish that every man may be able to come and cheer them on to victory.

The McGill team who turned out at the "Y" last night consisted of the following:

- Goal—McKindsey.
Defence—Munro and Bastable.
Forwards—Wade and Winter.
Centre—Bruker.

DR. GROSS BEFORE ALPHA OMEGA FRAT.

Topic: "Post-Natal Evolution of the Heart."

Last night the Alpha Omega Fraternity held their second meeting of the season. Dr. Gross addressed the meeting on the subject of "The Post-natal Evolution of the Heart." All the organs of the body are continually changing and being replaced, the change occurring in the gross appearance of the organ as well in the cells. The spleen is a very typical example, and varies with age. In disease of childhood the spleen reacts slightly, in middle age the reaction is marked, while in old age due to atrophy of the organ reaction of the organ is slight.

Dr. Gross then showed X-ray slides of injections of the coronary arteries in a normal heart. These hearts are injected with barium and show clearly the shadows of the coronary vessels under the X-ray. The aorta gives off the right and left coronary arteries. The left coronary artery supplies the anterior surface of the left ventricle, part of the right ventricle, and part of the left ventricle posteriorly. The right coronary artery supplies most of the right ventricle and some of the posterior part of the left ventricle. Small branches are also sent to the right coronary artery to the right bases of the aorta and pulmonary artery, with anastomoses around their bases. There are also anastomoses in the interventricular septum, in the fat surrounding the heart, and on the anterior surface of the ventricles.

Dr. Gross then showed slides starting with the heart at birth, and showing a heart for each decade of life up to the 9th decade. In the heart at birth there is an equal amount of muscle in the right and left ventricles, and an equal blood supply, no anastomoses being visible. As age progresses the blood vessels become more tortuous, the right heart shows less and less muscle—as compared to the left ventricle; the blood supply of the right ventricle becomes poorer and poorer; anastomoses appear. The slides brought out all these points very well, especially the change of blood supply in the right ventricle.

In rapid obstruction of the right coronary artery there is infarction of the heart; Cohnheim argued from this that the arteries of the heart were end arteries and did not anastomose. It was later shown that if the patient was bled before obstruction of the main coronary artery that there was a larger infarction. The anastomoses are enough to keep the heart going, but not free enough to compensate and prevent infarction.

Dr. Oertel then discussed the case, throwing some extra light on the subject. He stated that organs change in function during life as well as in appearance. Physiologists talk glibly of the function of a gland as if it were a constant thing, whereas it probably changes throughout life.

The Alpha Omega Alpha is a Fraternity to which members are elected every year from the two senior years in the Faculty of Medicine. Membership in the society is based almost wholly on scholastic standing, and it is an honor to which every medical student looks forward. Meetings are held twice a month throughout the session.

"McGill Daily" advertisers are chosen with care. They help our paper. Help them, and tell 'em why.

who hold permits for to-day will meet at the Hall at one-thirty sharp. The trip will, as usual, be in charge of the McGill Social Service Club, and the men, as in the past, will be under the leadership of the Jail guards once they reach the Institution.

JUNIOR AND INTERMEDIATE BASKETBALL.

General practice in Molson Hall at 5.15 Friday.

Correspondence

The "Daily" is not responsible for the sentiments of letters published in the correspondence columns. Signed communications from graduates, undergraduates and members of the faculties will be placed in print if they are not of too great length.

Correspondents are requested to observe the unwritten law of the newspaper office — that they write upon ONE side of the paper ONLY.

No communications will be admitted in this column without the name of the writer being attached, not necessarily for PUBLICATION.

To the Editor, "McGill Daily."

Dear Sir,—

A meeting of the McGill Students' Society was held yesterday evening. It may be stated, for the benefit of those who may not have known so, for the final result was that there was not a quorum. This meeting placed itself on record as being in favour of a monthly publication at McGill University. From other discussion, which, however, was not legally passed, it seemed to favour a policy of student council supervision and the obtaining of advertising in the name of McGill.

In this connection much credit would seem due to Messrs. Bullock and O'Hagan, who brought up the question, though it was unfortunately presented in the form suggested by them.

To come to a suggestion, could this publication have an editorial staff of four students, one of whom to be editor in chief, and ex-officio member of the Council? Let there be an advisory board of four professors for the purpose of approving the material contributed before publication, but with no responsibility regarding the editorial policy such as it may be.

The idea of the publication should be, it would seem, to foster literary efforts among the undergraduates—prose, poetry and art.

The matter of advertising should be left to the Students' Council to work out at their best convenience.

Regarding the initial staff of such publication, it is understood that there will be no difficulty in obtaining the assistance of the professoriate advisers. It could be left to the Students' Council to fill up the student editorial staff and to elect an Editor. In future the Editor could be chosen in much the same manner as is the Editor of the "Daily."

Yours truly,
W. H. BIGGAR.

R. V. C. NOTES

R. V. C. '22.

There will be an important meeting at one o'clock to-day in the Latta Room about the Year Book. Every one please attend.

STUDENT CHRISTIAN MOVEMENT.

As Prof. Hooke, owing to illness, will be unable to come to Montreal this week, there will be no meeting on Friday afternoon. We trust, therefore, that Prof. Hooke's visit is only postponed, and that we shall meet him later in the session.

A SUIT OF ARMOR.

Armor being a romantic kind of thing, and belonging to the ages of romance, one expects it to have had adventures, but the suit which sold recently for \$4,600 has had an exceptionally checkered career. It is fifteenth century Gothic armor, and evidently belonged to the latter half of the century, as its helmet is a salade. Baron de Cosson is convinced that the suit was among the spoils taken by the Turks from the powers of Europe and kept in the ancient church of St. Irene, in Constantinople. When, in 1840, Sultan Abdul Medjid had the church cleared out, a quantity of armor was brought as ballast to Genoa and there sold. It was from a local Genoese collector that Robert Curzon, afterward Baron Zouche, bought this suit.

SCHEDULE FOR CLASS HOCKEY NOW ARRANGED

Meeting of Class Managers, Discuss All Points.

RULES LAID DOWN

Managers Have Many Duties, Including the Stopping of Any "Rough Stuff."

At a meeting of the Class Hockey Managers the schedule of inter-class games and the hours allotted for practice were announced, and are being communicated to all concerned. Rules governing the conduct of games were explained, and will be communicated later. A portion is published with this issue. Those who were not present must communicate with the Manager at once and receive time tables. Cut this out and keep it.

4. The duties of a Class Manager shall be:

(1) To see that his players are present punctually, that they leave promptly at the end of the practice and without disorder, and that the property of the club is handed over intact.

(2) To furnish the names, initials and Faculty Year of every man playing or practising to the Manager. He may be called on to record the attendance of his men in the book provided for the purpose, and this must be done correctly and initialed. Otherwise he will report who are present to the Manager at the time.

(3) If placed in charge of the practice, he will see that no man takes part who has not in his possession either an "A" or a "B" Category card. This will be entered in the attendance book in the column provided. No "C" or "D" Category men may take part in any practice or play in any game.

(4) If in charge of the practice, he will see that no rough or dangerous play is permitted, and will see that any man injured is attended to, notifying the Department of Physical Education at once by messenger.

(5) He will furnish a list of players the day before any game to the Manager on the form provided. No man can play whose name is not entered.

(6) He will be responsible that every man so entered is in the proper category and in good standing in the club. The club is not bound to notify him that a man is not eligible; he must enquire of the Manager at least two days before the game.

(7) He will sign the book provided for all equipment issued and see that it is returned in good order at the end of the practice.

(8) In the event of bad or inclement weather, he will enquire at the secretary's office in the Union whether there will be the game or practice as scheduled.

(9) In the event of a protest, he will forward the same in writing to the Manager on the day following the game.

(10) He will also make himself familiar with all changes and new rules as they are published, and publication in the "Daily" shall be sufficient notice.

TRAMP TO BE IN JANUARY

McGill to Enter Team in Carnival by M.A.A.A.

The much talked-of snowshoe tramp which has been widely propagated during the last fortnight will be held at the first opportunity after the Christmas holidays. Every effort has been stirred up to have this "shine" on one of the few intervening days before the first term ends; but owing to the action of "mother nature" and the multitude of college activities staged for this week end, it is impossible to do so.

The exact date will be decided this afternoon at an executive meeting of the club. It will in all probability be set for Thursday, Jan. 6, when snow will undoubtedly be more plentiful and less demands be made for students' spare time.

All men desirous of competing at the winter carnival to be given by the M.A.A.A. in the near future are urgently requested to get in touch with J. C. Simpson, Med. '25.

The carnival will be the first of the season and one in which McGill wants to make a good showing in this old-time sport, and to do this, there is but one way—for the students to get into condition, the sooner we get started the better. This will prove an ideal opportunity for snowshoers to get into practice for the three meets which will be held later on in the New Year at St. John, N.B., Quebec and Montreal.

R.V.C. TRIUMPH IN BASKETBALL CLASH

Both Teams Overcome Aggies in Hard Fought Games at Ste. Annes.

Yesterday afternoon the first and second R. V. C. basketball teams, supported by a goodly number of rooters, went out to Macdonald to play the return match. The Junior teams played at 5 o'clock and the Senior teams after supper at 7. They won.

The Junior game was not as fast nor as exciting for the spectators as some of the inter-year games, though in the second half Macdonald offered more resistance and the play was quicker. There was not a great deal of fouling. Miss Eleanor Cox played a very good game at the basket supported by Miss Ted Rough, and at half time the score stood 13-2 in favor of R. V. C.

Then, after 10 minutes rest, the girls returned to the fray. Macdonald now played harder and several times the ball was sent to the R.V.C. basket, only to be stopped by Miss Betty Legatt. R. V. C. was bound to win and when the whistle blew the score was 24-6 in their favor.

The teams then went to the dining-room for supper. After this they returned to the gym and all danced for some time.

Then the Senior teams assembled on the floor, the whistle blew and the more exciting game began. The Macdonald girls were very much shorter than those of R.V.C., and this made their fight the harder. There was a good deal of fouling on the part of both teams but McGill only got in two of the free shots. At times R.V.C. did some very pretty passing. At one time the game grew most exciting. At the end of the first half the score was 21-2.

The second half was noticeable for some very hard, fast playing. Macdonald tried hard to drag the game from the fire but in vain. Several times the girls were given a minute to recover their breath. Miss Ruth Parkes played very well, though her shots did not number many. Macdonald fouled continually and R.V.C. were taking a free shot when the time was up. The score was 41-5 for R.V.C.

The names of those who played are:

Senior.		R. V. C.	
R. MacDonald	shots	Z. Slack	
R. Parke	shots	M. Legatt	
F. Cookson		L. Mowat	centre

---FIRST FLOOR UP.

BASKETBALL AT MOLSON LAST NIGHT

McGill Junior and Intermediate Defeated.

GOOD PLAY.

Teams Were Evenly Matched in Weight and Size.

The Molson Hall was the scene of two hard-fought battles last night. Both the games ended in a win for the visiting teams.

The Junior "B" team versus the Alerts was the first game played. The game was a very fast and exciting one; both teams were equally adept at the art of passing but some occasional and unavoidable fumbling on the part of the McGill men proved their undoing.

The teams on retiring from the fray showed signs of exhaustion.

The men playing guard were the immediate cause of preventing a more disastrous defeat to the home team.

The final scores of the first game was—Alerts, 33; McGill, 13.

The second game commenced at 9.30 sharp. The players were fairly evenly matched in size and weight. This game proved more exciting than its predecessor. The accuracy in passing seemed at times almost uncanny. The fleetness of players was very remarkable.

No player could be marked down for exceptionally brilliant play.

The result of this game as in the first proved to be a defeat for the intermediates.

The final scores were—North Branch "Y", 31; McGill Juniors, 18.

The line-up of the teams were:

Juniors—Forwards, Read and Levy, centre, Wright; guards, Snyder and Findley.

Intermediates—Forwards, Tucker and Swartzman; centre, Greenblatt; guards, McCarr and Caldwell.

INTERMEDIATE A. BEAT M.A.A.A.

Final Score For Red and White: 27-24.

McGill's Intermediate "A" basketball squad won from M.A.A.A. last night in a close game, the final score being 27-24.

M.A.A.A. started off well and maintained a lead during the first half. The McGill forwards were not showing up particularly well, and the period ended with sixteen baskets for M.A.A.A. as against McGill's thirteen.

McGill succeeded exactly in reversing the play during the second half. Close checking and remarkable individual play characterized this second period. With five minutes to go, James tied the score on a penalty shot and Turpel followed with a penalty basket.

It would be difficult to pick the star of the game, but Turpel did good work scoring 17 baskets.

The line-up follows:

McGill—27.	M.A.A.A.—24
Turpel..... 17	Tilden..... 14
James..... 4	Myers..... 4
Murray..... 2	Campbell..... 5
Hilton..... 2	Atkinson..... 2
Blumenstern..... 2	Glickman..... 2
Spares (McGill) —	Brucher and Starke.

THE BIG FOUR

That Cornell, Dartmouth, Columbia and Pennsylvania should form a Big Four eventually destined to rival Yale, Harvard and Princeton's Big Three is a suggestion which brings immediate interest. At Columbia such a move is already being openly advocated. It is held that there could be no valid objection to such a combination, and that the mutual benefits accruing to all four institutions would offer sufficient reason for its formation.

The actual accomplishment of such a union would not by any means involve the reconstruction of present schedules to the members of the union and a few smaller and weaker colleges. It would, however, result in the inclusion of regular annual contests between all four members and would engender a spirit of friendly rivalry and unity of purpose, which would mean much to the undergraduate members of all. It is by such recognition of mutual equality that the best results of intercollegiate sports are obtained.

In many sports the lines of union have already been drawn to a certain extent. An actual combination wouldn't necessitate radical readjustments, but it would result in the fostering of a valuable feeling of friendship and mutually between four of the largest and best collegiate institutions in the world.—The Pennsylvanian.

We only want you to buy from "Daily" advertisers if you're satisfied with the goods they sell—but you owe them a tryout.

PROGRAMME OF ACTIVITIES OF CENTRAL Y.M.C.A. MONTREAL.

Thursday, Dec. 16.
9 a.m.—Central Secretariat executive.
11 a.m.—Ladies' Morning Musical Club.
11 to 12 a.m.—Y.M.C.A. Physical Directors' Club.
3 to 4 p.m.—Montreal Women's Club, Board Room.
5 to 6 p.m.—Can. Export Glee Club, B and P. Men's Room.
6 to 7 p.m.—Resident Members' basketball.
6.30 p.m.—"Idenots" Club supper.
Speaker, A. O. Dawson. Subject—"When is a Man Successful?"
7.30 p.m.—Y.M.S. "Idenots" special meeting.
8 p.m.—Leader Corps' Social in Old Library.
8 p.m.—Central District Com. R.E.A. Board Room.
8 p.m.—Physical Examination.
8.45 p.m.—Boys' Ev. Sr. Social Hour.
Friday, Dec. 17.
12.30 p.m.—Kiwanis Glee Club.
3 p.m.—Business College Club meeting.
4.45 p.m.—Junior Leaders' Corps.
7 p.m.—Boys' Fireside. Special speaker.
7.30 p.m.—Night School.
8 p.m.—Douglas Church' entertainment in Assoc. Hall.
8 p.m.—Business Training Corporation class for foremen and factory executives.
8.15 p.m.—Gym. Club practice.
9 a.m.—Lantern Lecture in Lobby. Mr. T. S. Somers on British Columbia.
Saturday, Dec. 18.
9.30 a.m.—Boys' Day Sr. Club meeting.
10.15 a.m.—Montreal Ladies' Club executive meeting.
2 to 5 p.m.—Boys' Department rehearsal.
2.30 p.m.—Hike.
2.45 p.m.—Marathon Basketball meeting.
4.45 to 6.15 p.m.—Sr. Leaders' Corps.
5.30 p.m.—Boys' supper and speaker.
8 p.m.—Basketball, Montreal South vs. Central, at Montreal South. Jun. team in the M.C. and D. League. Central vs. M.A.A.A. at Central Inter.
8.15 p.m.—Boys' Rally Skit.—"Who's to win them?"
Sunday, Dec. 19.
9 a.m.—Resident members' breakfast.
9.30 a.m.—Boys' Hospital Choir.
3 to 4 p.m.—Men's healthful living. Topic, "Pluck."
3 p.m.—Special music in lobby—Speaker.
4 p.m.—Men's meeting in auditorium. Dr. Griffith.
5.15 p.m.—Sunday home tea in Cafeteria.
8.40 p.m.—Fireside home hour.

FOR SALE.

One Ford car in first class trim. Has no tires, but runs on the rim. Five spokes gone from the left front wheel.
No front springs and a broken windshield.

Top all torn, dent in the back. Has no tools, not even a jack. This car runs where others stall; Has no hub caps, not even a ball. No running board, not even a plank. Radiator-burst, carburetor cracked.

Will run forward, can't be backed. Hits on two, then on four. Runs miles before it hits any more. A Bargain! If interested call B. E. Walls, Griffiths, No. 2.—The Furman Hornet.

DEMANDS OF ROMANS.

The demand of the Roman freeman was for "Bread and the circus." That was more than twenty centuries ago, and to-day the descendants of Rome, in the Iberian peninsula, are still demanding "Bread and the circus." Of course, the bull ring is a very insignificant affair compared to the Colosseum or the great amphitheatre at Verona, and they only massacre bulls there, not human beings. Still, it apparently must be classed with bread as a necessity. Thus the government, though increasing the taxes on luxuries, omits the bull ring like the baker's shop. The matador remains as ever the most popular figure in the country. The baker planks down his peccates to see the matador do his killing, which is more than the matador would think of doing to see the baker bake.

He—"Where did he kiss you?"
She—"On the lips, sir."
He—"No, no; you don't understand. I mean where were you?"
She—"In his arms."—Exchange.

Green circles in pastures or meadow lands were once thought to be the scene of the midnight revels of the fairies.

The disease a man dreads, that he dies of.

NEW DEPARTURE IN THEATRICALS

Tivoli to Present Girl And Music Show And Pictures Starting Monday

What promises to offer a new and attractive haunt for the brain-fagged student and the tired business man is the Tivoli Theatre under a new arrangement which will be inaugurated by Manager John Fiddes on Monday next. In a girl and music show combined with pictures, Mr. Fiddes is trying out a new departure in the west end, and has chosen his cast and vehicles with a view to pleasing west end tastes.

The Powder Puff Follies, under which title the Tivoli is presenting this new form of amusement, calls for a new show each week with special additions to the cast from time to time. Special film plays will be shown at each performance, of which there will be three daily.

The theatre has been undergoing extensive alterations during the past three weeks and is rapidly nearing completion with a commodious stage and a completely renovated auditorium. Rehearsals for the first edition of "The Powder Puff Follies," have been under way for several days and a smooth and rollicking opening is promised. Heading the bill is Bert Byrne, comedian, late of the Maid of the Mountains company, who is supported by Al Fontaine, Bobby Reed and a chorus which is advertised as being able to "do things."

E.I.C. LECTURE WILL BE TO-NIGHT

Movies and Slides Will Help To Make Interesting Talk.

There will be a lecture before the Montreal Branch of the Engineering Institute of Canada this evening on "Over-all Thermal Efficiency in Everyday Engineering Practice."

This lecture will be illustrated by lantern slides, and there will be in addition moving pictures illustrating the manufacture of glass and of leather belting—the last through the courtesy of the Graton and Knight Manufacturing Company, of Montreal. The meeting will be held at 176 Mansfield Street, at 8.15 p.m. promptly, and all students are invited. In spite of the progress made in recent years, thermal efficiency of modern plants is still disappointingly low, and the present generation of students must be relied on for improvements in this respect. It is hoped that there will be a large attendance and that this subject will attract the attention that its importance warrants.

SKATING.

We speed o'er the star-lighted mirror along,
And the wood and the mountain re-echo the song,
As on, like the wing of the eagle, we sweep,
Now gliding, now wheeling, we ring o'er the deep.

The stars are above us, so full and so bright,
And the mirror below us is gemmed with their light.
Like the far-wheeling hawk, in the mid-air we fly;
A sky is above us—below us a sky.
As onward we glide in our race, we keep time;
And clear as the morning bell echoes our chime.
By pine-covered rock, and by willow-bound shore,
Breast even with breast, like a torrent we pour.
Short, quick are our strokes, as we haste to the mark,
And shrill is our cry, as the trill of the lark.
The goal is now reached, and we bend us away,
Wide wheeling, or curving in fanciful play.

—James Gates Percival.

Don't Forget Them

Those men and business firms who have shown their good will toward you as students and McGill as an institution by advertising direct to you in your own paper.

These business houses are representative of the best merchandise in their respective lines to be found in Montreal. They advertise in the "DAILY" because they sell the sort of goods university men and women like to buy.

So in doing your Xmas shopping this year apply a principle of good fellowship which is a part of the spirit of Old McGill.

Stand By Those Who Stand By You

When making out your list of presents to be bought, how about making another list containing the names of firms who have spent good money to secure your patronage and giving them value for their money by trading in their stores?

We have arrived at the conclusion that the advertisement which formerly filled this space has been running quite long enough!

You know it was the one which read

YOU TEA-HOUNDS!!!

So we're going to change it---right here and now!

All we wish to say is that you will be in favour of the meals we are serving from day to day at

The Union Cafeteria

Boy! How good they are!
